6 July 2011 - Wednesday

8.30 Opening Ceremony

9.00 I Session: Basic Science Chairs: R. Scarpa and G. Marone

9.00 O. FitzGerald  A pathogenetic overview on psoriatic disease
9.20 D. McGonagle  Synovio-entheseal complex: the state of art
9.40 A. Cauli      IL-17 and IL-23 in the pathogenesis of spondyloarthropathies
10.00 Discussion

10.10 Coffee break

10.30 II Session: Clinical Science (Part One) Chairs A. Mathieu and D. Gladman

10.30 P. Helliwell  The remission of psoriatic arthritis: the GRACE Study
10.50 C. Palazzi    Occult psoriatic arthritis
11.10 J. Gelfand    Metabolic syndrome
11.30 A. Marchesoni  Fibromialgia and psoriatic arthritis

11.50 Discussion

12.00 Lunch

14.00 III Session: Clinical Science (Part Two) Chairs L. Espinosa and F. Ayala

14.00 R. Scarpa     New insights on psoriatic disease concept
14.20 NJ. McHugh    Causes of death in psoriatic arthritis
14.40 A. Del Puente  Osteoporosis in psoriatic arthritis

15.00 Discussion

15.30 IV Session: Imaging Chairs M. Salvatore and I. Olivieri

15.30 W. Grassi     Psoriatic arthritis: why do we need ultrasonography in everyday clinical practice?
15.50 M. Cimmino    Articular and extraarticular synovial structures seen through MRI in the hands of psoriatic arthritis patients.
16.10 E. Soscia      The role of MRI imaging of nail unit in psoriatic arthritis
16.30 E. Lubrano     The Radiological Evaluation of Axial PsA

16.50 Discussion

17.00 Coffee break

17.20 V Session: BIOMARKERS Chairs G. Minisola and N. Ferrara

17.20 C. Ritchlin    The role of biomarkers in psoriatic arthritis
17.40 U. Fiocco      Synovial biomarkers in psoriatic arthritis
18.00 V. Chandran    Soluble biomarkers may differentiate psoriasis from psoriatic arthritis
18.20 Discussion
7 July 2011 - Thursday

8.00 VI Session: Therapy (Part One) Chairs G.F. Ferraccioli and P. Hellisweli

8.00 E. Soriano The actual position of the therapy with traditional DMARDs in psoriatic arthritis

8.20 VII Session: (Part two) Chairs L. Punzi and A. Adebajo

BIOLOGICAL THERAPIES: STORIES OF SUCCESS AND PROSPECTS FOR FUTURE

TRADITIONAL DRUGS

8.20 F. Cantini Infliximab
8.40 A. Spadaro Etanercept
9.00 C. Salvarani Adalimumab
9.20 A. Sanduzzi Monitoring of tubercular infection

9.40 Discussion

10.00 VIII Session: (Part Three) Chairs M. Matucci and A. A. Qureshi

NEW MOLECULES

10.00 A.B. Gottlieb Ustekinumab for psoriasis
10.20 A. Kavanaugh Golimumab for psoriatic arthritis
10.40 P. Mease What’s on the horizon? New treatment possibilities for psoriatic arthritis

11.00 Discussion

11.20 Coffee break

11.40 IX Session: (Part four) Chairs G. Di Minno and N. Caporaso

THE LESSON DERIVING FROM RHEUMATOID ARTHRITIS

11.40 G.F. Ferraccioli A different approach in binding TNF
12.00 P. Sarzi Puttini The block of IL6: tocilizumab
12.20 F. Iannone The inhibitor of costimulation of T-cells: Abatacept

12.40 Discussion

13.00 X Session (Part Five) Chairs J. Moll and A. Balbir Gurman

13.00 I. Olivieri Pharmacoeconomy
13.20 D. Gladman Future trends in research

13.40 Discussion

14.00 J. Moll Closing remarks
